Students are to read *Night* by Elie Wiesel. Students will be assessed on their reading, during their English class in the first week of school in August. The book is the author's first-person account of his experiences as a prisoner in the Nazi concentration camps. The setting of *Night* is various locations in Nazi-occupied Europe, including concentration camps in Poland and Germany. The book recounts Elie Wiesel's experiences as a prisoner at both the Auschwitz-Birkenau and Buchenwald concentration camps during the last year of the Second World War. The time element is important to the story because if Wiesel had been imprisoned earlier, he most likely would not have survived.

The book opens in 1941 with the introduction of Moshe the Beadle and Wiesel as a twelve-year old religious student. By the time the author and his family were deported in May of 1944, the machinery to implement the Final Solution was well organized and ruthless in its capacity to murder millions. Germany would surrender one year later on May 8, 1945. Vocabulary is included to aid your reading, not to be memorized. 😊
